

A stylized, colorful illustration of a landscape. The foreground features rolling green hills with a brown path. On the left, there is a green tree, a purple flower, and an orange flower. A red bird is flying in the sky. The background consists of layered blue and white waves, suggesting a sky or water. The text is overlaid on the right side of the image.

Great British Spring Clean March 2018

Barnetby Le Wold – North Lincolnshire
Feedback Report

We had a fantastic turn out!

Thank you to all that attended and gave up their time

We Collected over 50 bags of litter as well as clearing up a good amount of the railway embankment!

What we found....

Beer Cans

Car Parts

Dog Poo in
Bags!

Plastic Bottles

Pub Glasses

Crisp and
Sweet Packets

Glass Bottles

Various Large
Fly tipped items

Energy Drink
Cans

Carrier Bags

Take Away
Containers

Discarded
clothing

Did you know....

Glass can take anywhere from 4000 years to a million years to decompose.

A Tin can take around 50 years to decompose
Aluminium can take up to 200 years

A Plastic bag can take 500-1000 years to decompose.

WHY???

Dog poo can decompose in about 7 days, however the plastic bag takes about 1000 years to decompose.

Whilst we do not condone dog fouling on our streets, it seems very bizarre why people would go to the effort to bag it up yet, litter it??

Please, Please, Please, – Use the many dog waste bins available in the village – if these are not accessible on your dog walking route – then TAKE YOUR WASTE HOME!

Once Again – Thank You!

On Behalf of Barnetby Parish Council, we would like to give our sincere thanks to all those involved in the litter pick, from sharing previous experiences, best practice, helping in the organisation of the day!

It was very well received and we do have a supply of equipment that we can use moving forward to make these events a more regular occurrence.
